

Dartmouth Hitchcock Medical Center
Dartmouth Cancer Center
Radiation Oncology

2nd Annual Dartmouth Radiation Oncology Research Retreat
Saturday, November 5th, 2022
Location: DHMC, Auditoriums B, C & D (WebEx optional)
7:30 AM – 12:00 PM

PRESENTATION FORMAT AND TIME GUIDELINES

Due to the number of speakers and project areas that will be presented, and to be fair to everyone involved we will adhere to a very strict time schedule.

- Each investigator presenting shall use no more than 1 title slide and 10 presentation slides (described below)
- Each investigator will be allowed 8–10 minutes to present

TITLE SLIDE

List the investigator's

- Name
- Department/Section/Center
- Title
- DCC research appt
- DCC shared resources used
- Specialty training
- Current areas of expertise

PRESENTATION SLIDES 1-8

- List the major research approaches used (type(s) of study or assay, e.g. IGRT-based, animal models, liposomes, signaling, computer imaging algorithm, outcome modeling, genomics/proteomics, clinical trial, drug/XRT study, etc.)
- For each of the approaches, the project areas to which they are applied should be listed and very briefly described

PRESENTATION SLIDE 9

- For each project discussed above there should be a statement of the title, the funding source, the current project period and the total and current funding
- The collaborating investigators and institutional/department/center affiliations should be listed

PRESENTATION SLIDE 10

Future directions (grants applied for) and listing of manuscripts from your group on this research topic.

The 2021 Annual Dartmouth Radiation Oncology Research Retreat agenda can be found [here](#).

*Please email your preliminary title slide to [Dr. Charles Thomas](#) ASAP. Email completed power point presentation to [Carrie Hertel](#) and Dr. Charles Thomas by **12:00 PM on Thursday, November 3, 2022**.*
