

Palliative Care Radiation Oncology Program Leader

The Norris Cotton Cancer Center (NCCC), one of 41 NCI-designated comprehensive cancer centers, the Geisel School of Medicine at Dartmouth and Dartmouth-Hitchcock Medical Center, seek applicants for a full-time clinical position in the Section of Radiation Oncology. Candidates must be BE/BC in Radiation Oncology and have a strong commitment to academic radiation oncology.

Boasting ACR accreditation, we are a long-standing member of NRG/RTOG and participate in a variety of national clinical protocols. Staffing includes 7 radiation oncologists, 5 physicists, 6 dosimetrists, 6 nurses, 20 therapists, and full secretarial and administrative support. The Section treats between 1000-1100 patients annually. This position includes opportunities for outcomes & policy research collaboration with faculty at NCCC, Geisel School of Medicine at Dartmouth, Dartmouth Medical Physics Education Program, & The Dartmouth Institute. Faculty rank is commensurate with qualifications.

The candidate will focus on palliative care radiation therapy services including bone metastases, oligometastases and inpatient palliation. The duties include participation in a multidisciplinary bone metastases clinic and tumor board. MRI-Guided Adaptive Radiation Therapy provides the potential tool for simulation and treatment with SBRT. The position entails interaction with a strong palliative care team and a nurse practitioner with great experience in pain management. State-of-the-art technology including MRI Linear accelerator (ViewRay), Varian HDR and Vision RT, is part of the armamentarium of treatment delivery. Research and teaching are crucial for the academic mission of the institution. Career development for the successful candidate is a high priority of our leadership.

Dartmouth-Hitchcock is an academic medical center located in Lebanon, New Hampshire in the Upper Connecticut River Valley on the NH and VT border.
